

spin

| tapware • accessories

The Australian Designed SPIN tapware range is a fusion of modern classicism. Striking the perfect balance between style, comfort and clarity, these pieces have been created to become beautiful focal points that effortlessly tie your bathroom or kitchen elements together.

Our Brushed Brass range uses an industrial grade Physical Vapor Deposition) electro plate finish which provides a harder, environmentally friendly corrosion resistant product.

The SPIN range is also available in Chrome, Matte Black and Brushed Nickel finishes, so you're guaranteed there is a SPIN design perfectly suited to your home.

spin progressive

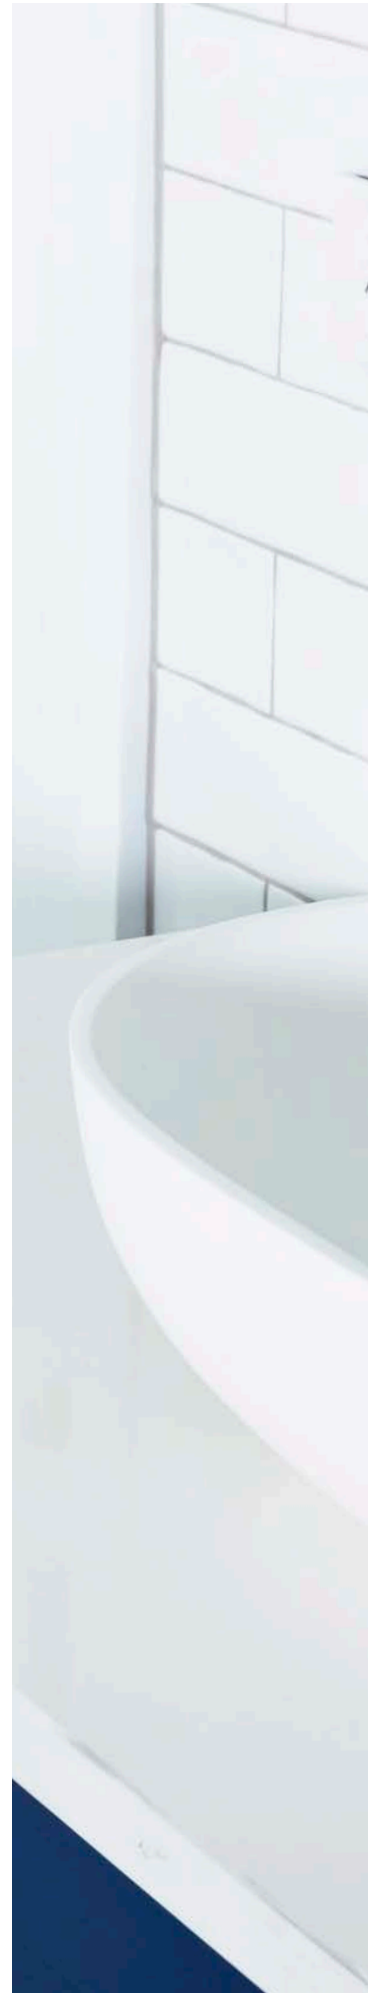

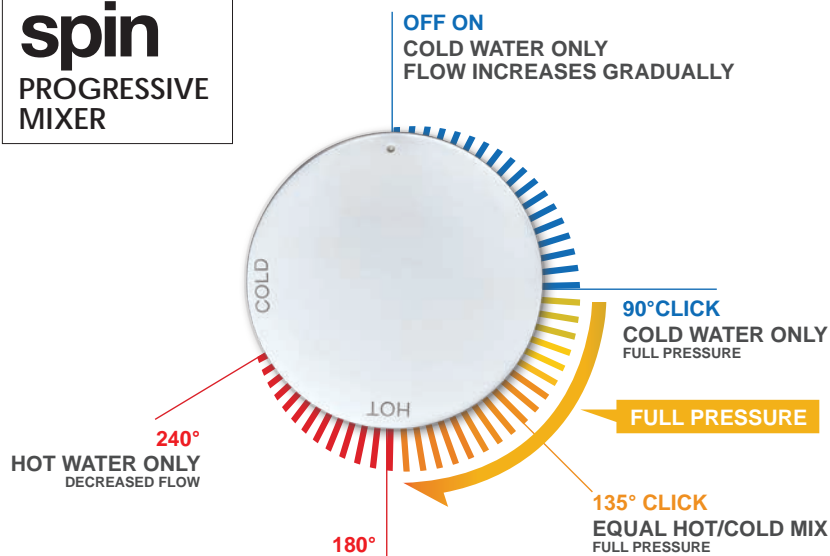

Architectural tapware that provides the perfect balance between technological innovation and quality engineering.

This compact progressive mixer allows you to precisely control the water flow and temperature simultaneously in just one movement. Suitable for new installations or retro-fit tapware upgrades, the placement options are endless; whether side by side or vertically stacked, it's completely up to you!

SPIN Progressive incorporates the German engineered Flühs cartridge to deliver incredible energy and water saving benefits. Beginning in a low pressure, cold position, turning the dial increases the water pressure and introduces warm water until hot water flows at the final position.

Featuring premium finishes and a lifetime cartridge warranty, SPIN Progressive range is the perfect addition to any contemporary bathroom renovation.

CARE INSTRUCTIONS

Clean regularly using mild soap and dry with a soft cloth.

Do not use abrasive cleaners or materials (eg. steel wool, scourers etc.), harsh detergents or citrus based cleaners on any tapware products as these may cause scratching or damage to your finishes.

Tightening or adjustment of Tapware over time is considered general maintenance.

Regularly check and clean tapware aerators / flow restrictors. Spare parts are available if required from your local Highgrove Bathrooms store.

CASA LUSSO
